

Dear colleagues,

The educators, students, and parents of Kryvyi Rih Lyceum No. 127 are reaching out to request your support.

Today, our lyceum stands as one of the largest educational institutions in the district, serving nearly 800 students in grades 5 through 11. We are an academic institution offering profile-based education for high school students (grades 10–11) in History, Mathematics, Ukrainian Philology, and Foreign languages.

Currently, we operate under a hybrid learning model. Regrettably, due to frequent air raid alerts, a significant portion of our classes must be conducted in a temporary shelter equipped for 300 people. Our facility has also sustained direct damages from Russian attacks when enemy forces were positioned just 15 kilometers from our district. This resulted in 240 shattered windows and severe damage to our gym and cafeteria.

Despite these ongoing challenges, we remain steadfast in our mission to educate and support our children. To ensure that learning inside the shelter is both effective and comfortable, we urgently require your assistance in acquiring the following items:

Technology and Furniture for the Shelter: Laptops, printers, interactive whiteboards, standard whiteboards, and flipcharts.

Sports Equipment: Volleyballs, footballs, basketballs, jump ropes, gymnastics mats, and stopwatches.

Literature: Fiction and educational books for teenagers in German and English.

Equipment for Extracurricular Activities and Leisure:

- Portable speakers and microphones;
- Thermal hot water dispensers (to provide children with warm beverages during prolonged stays in the shelter);
- Educational and board games for teenagers.

We would be profoundly grateful for any support you can provide.

Sincerely,

The Community of Kryvyi Rih Lyceum No. 127
